

ADDENDUM

MAGNIFICENT MAGNIFICATION KIT

In an effort to ensure that your experience with Science Unlocked® meets our standards, we have sighted a few errors in your Magnificent Magnification manuals.

On page 8 of the Student Workbook, please observe the following corrections (listed in bold):

- *Paragraph two: The average adult female should be **1.5 m tall***
- *Paragraph two: You would have to line up **1,500,000 cells in a row***
- *Paragraph three: 150,000,000 mitochondria would have to be lined up to **equal the height of an adult female***

On page 15 of the Student Workbook, please observe the following correction:

- *Methylene blue is indicated as a required item for the lab, but is not used in this lab.*
